### **OWNER'S MANUAL - BASIC SETUP DIMENSIONS & ASSEMBLY NOTES**

# It is critically important that you start with square and level footings, concrete pad or deck to attach your structure

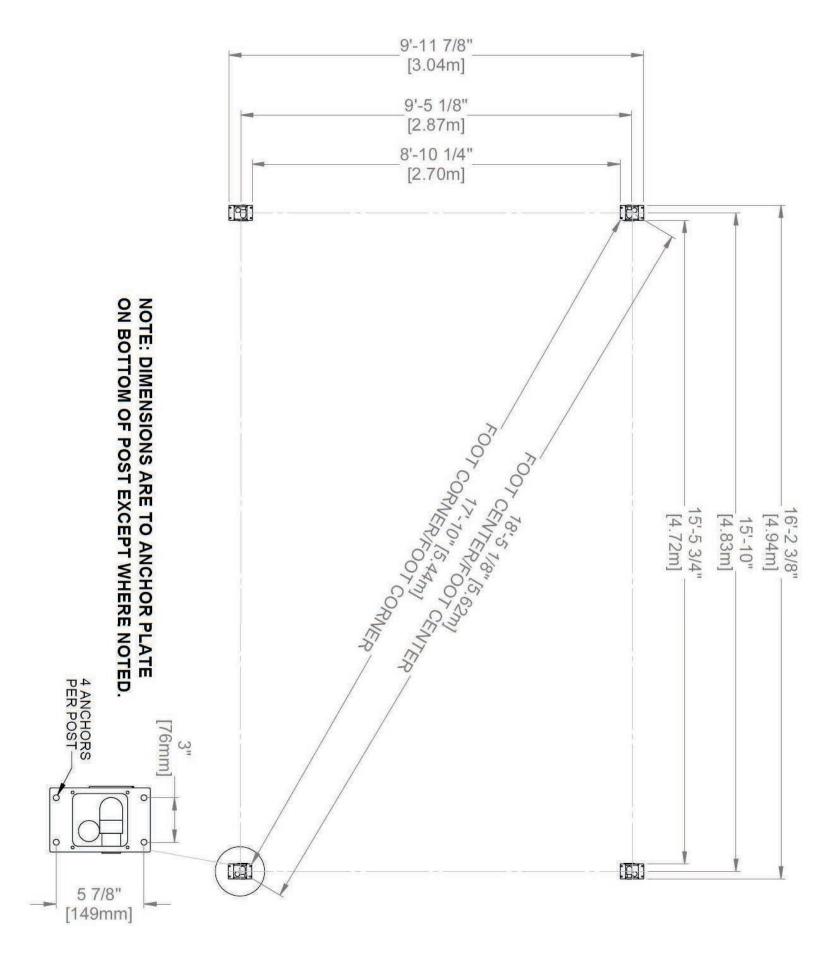

- Pay close attention to the items needed for each step. Make sure you are using the correct hardware for each step. Using incorrect hardware may result in improper assembly
- Remember to double check for underground utilities and overhead electrical lines

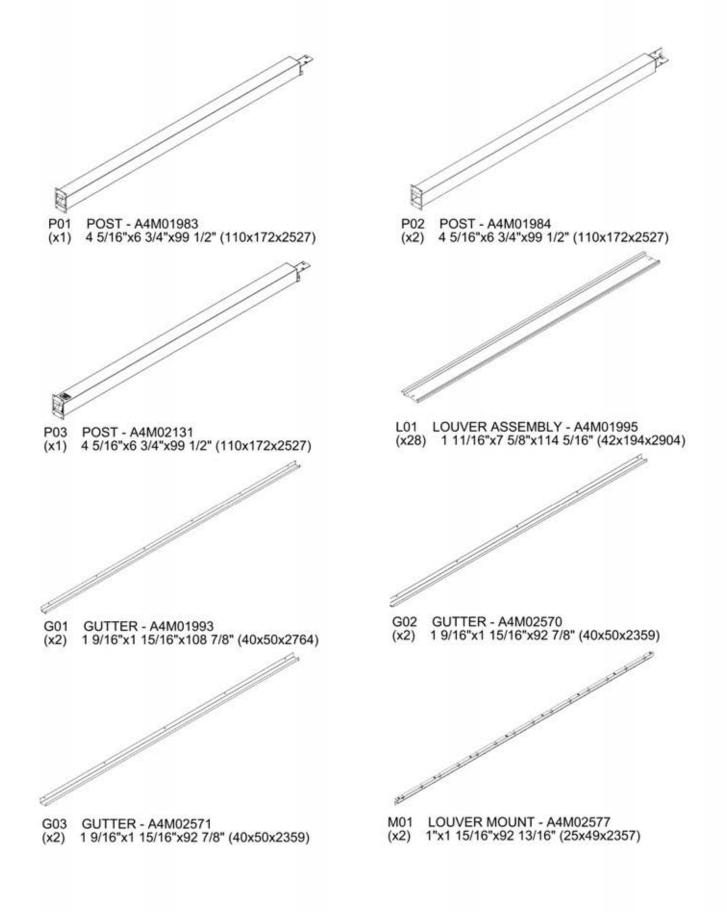

# Post mounts are provided with your structure which allows you to permanently install your structure to a pre-existing or new wood or concrete surface. <u>See Anchor Instructions for further details and recommendations.</u>

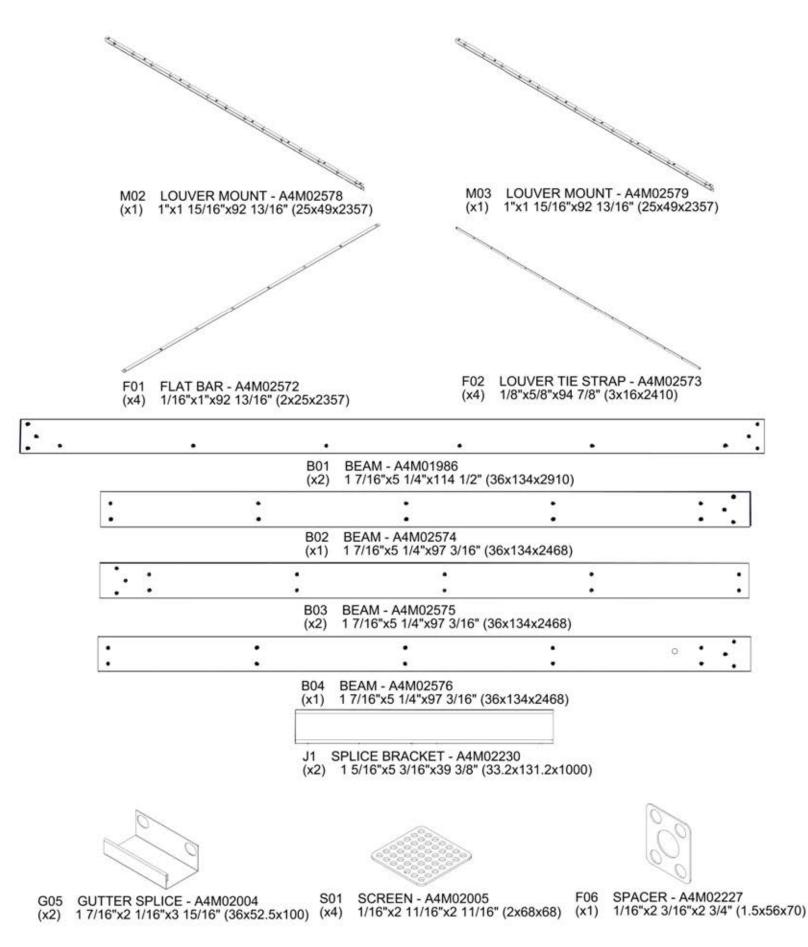

- The hardware to attach the post mounts to the structure is included.
- The hardware to mount the structure permanently to a concrete surface is included.
- The hardware to mount the structure permanently to a wood deck is NOT included and will need to be purchased separately. You must ensure there is ample structural support under the deck before permanently attaching.

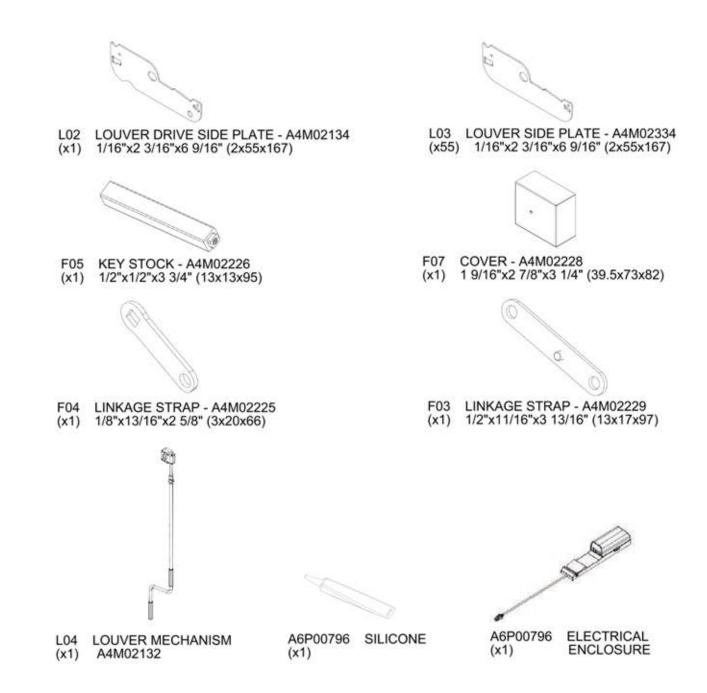

## **OWNER'S MANUAL - ANCHORING LAYOUT**

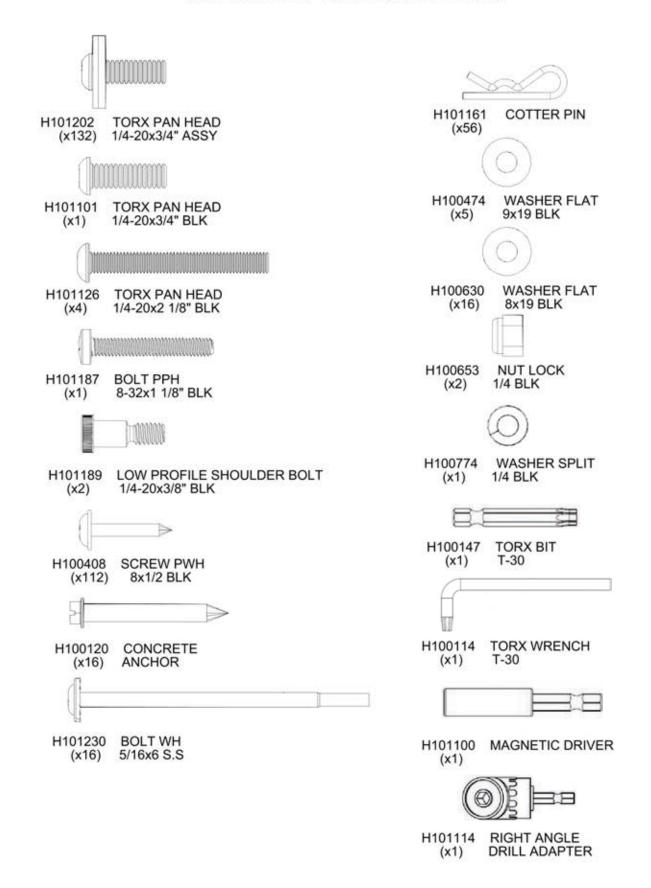

HARDWARE COMPONENTS (NOT TO SCALE)

## **PRE-ASSEMBLY STEP 1 - SORTING PARTS**

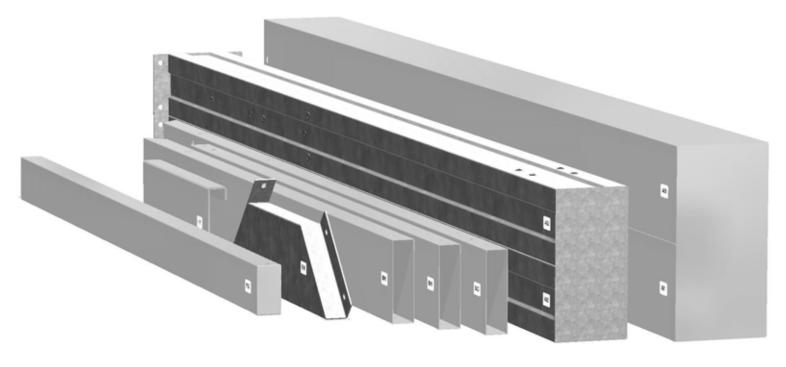

It is critical for ease of assembly that you take the time to sort and organize the parts and hardware.

### METAL PARTS:

- Organize metal parts by the three-digit, alpha-numeric number stamped on each part (ex. P01).
- If there are multiple parts with the same stamped number, stack those pieces together.
- Stamps can be found on the flat surface of the parts or on the end of the parts.
- Allow yourself plenty of room the parts can take up a significant amount of space.

### NOTE: CARTONS ARE NOT ORGANIZED BY PART NUMBER.

IT IS RECOMMENDED TO LEAVE LOUVER ASSEMBLIES IN BOX UNTIL NEEDED.

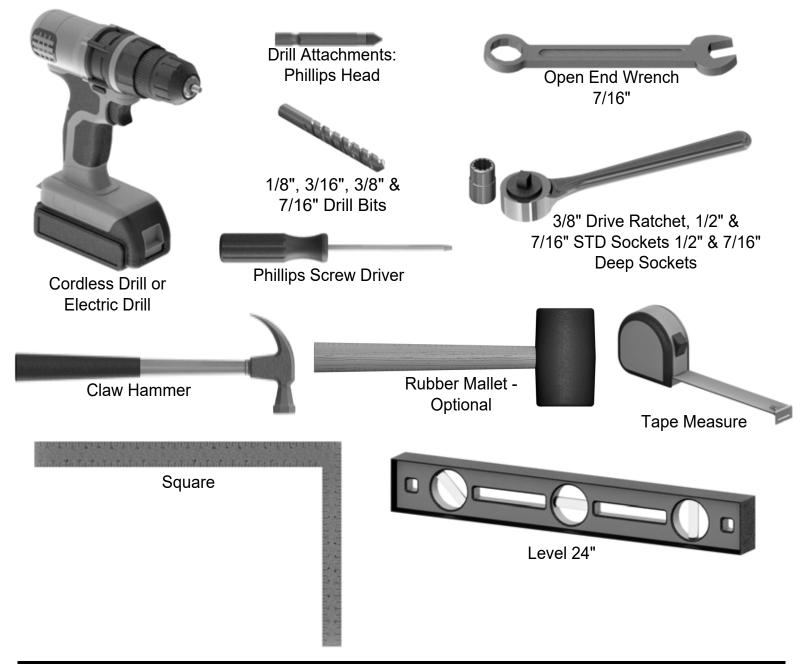

### **HARDWARE PARTS:**

- We recommend that you have a separate table to organize the hardware.
- Hardware bags are printed with a seven-digit, alpha-numeric part number.
- You can organize your hardware by part number or group by hardware type (i.e. bolts, nuts, etc.).
- During assembly you only need to reference the last four digits of the number.

### **PRE-ASSEMBLY STEP 2 - TOOLS REQUIRED**

### **PRE-ASSEMBLY STEP 3 - CHOOSE YOUR ASSEMBLY METHOD**

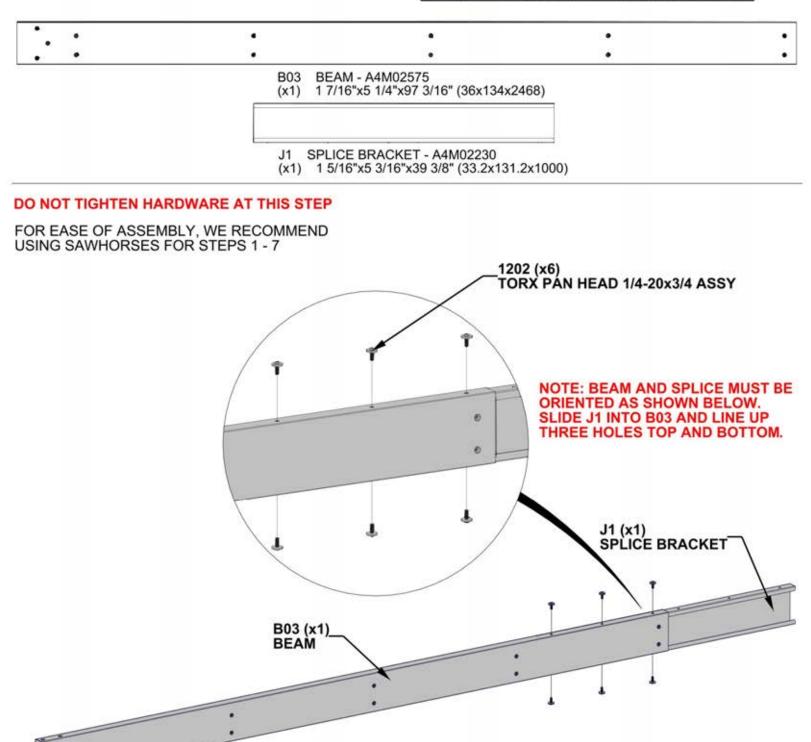

There are several types of assembly instructions available to you.

- 1. Printed Assembly Manual included with your set
- 2. BILT APP 3D interactive instructions
- 3. Combination of the Printed Manual and BILT APP (Note: Step numbers can differ between the two methods)
